# Your personal printer

A printer just for you – and your specific work requirements. Want an important report in a hurry? Need to print a confidential document nobody else should see? No problem. The ineo⁺ 3100P has been specifically designed to meet the demand of everyone who needs a fast and conveniently compact colour printer that ideally complements larger multifunctional office systems. It will fit into the smallest space and economically deliver printouts of excellent quality. This printer's energy efficiency and paper-saving economy give it good environmental credentials, as the Blue Angel and Energy Star labels prove.

## Productive performer

A personal printer is extremely useful for anyone who needs important documents printed either quickly or confidentially, or both – whether that's a CEO, finance or human resources department, small workgroup or sales rep with a home office. The problem is that many desktop printers are slow at processing and printing print jobs, which is a no-go in time-critical situations. The new ineo⁺ 3100P from DEVELOP has been launched to meet these specific needs. The powerful controller ensures print jobs are processed fast and at 31 pages per minute in colour or black and white the ineo⁺ 3100P is certainly a fast performer. What's more, this speed is maintained even if you choose to have documents printed on both sides to save paper and time. Fast, efficient and highly compact – the ineo⁺ 3100P is a productive performer that takes up little room on a desk or office shelf.

## Energy efficiency

Of course every additional office device consumes energy and paper – both business-critical cost factors. But the ineo⁺ 3100P helps reduce energy and paper consumption to a minimum. The printer's eco-friendly HD polymerised toner is partly made from biomass and has a very low fusing temperature, which saves energy. Moreover, this printer's power consumption is generally low and in sleep mode a mere 3W. If used regularly, the printer's standard duplex function will significantly cut paper consumption as well. The energy efficiency and environmental performance of the ineo⁺ 3100P have been acknowledged by Blue Angel and Energy Star labels. So investing in an ineo+ 3100P is not just a good idea for your work but also for your business and the environment.

## Complementary convenience

These days, most mid-sized or large companies have one or more multifunctional A3 office systems that are used by entire departments or large workgroups. The ineo⁺ 3100P network printer is the ideal complement to any A3 system because it meets the personal printing needs of individuals or smaller workgroups. Since it uses the same state-of-the-art controller technology as the larger ineo systems, the ineo⁺ 3100P can be seamlessly integrated as a satellite system into any larger print landscape. Through its support for Develop's Enterprise Suite tools, this personal printer can also be equipped for a variety of additional functions, e.g. print-job monitoring. Not only IT administrators will appreciate such complementary convenience.

## General data

**Type of machine**
Desktop system

**Printing and copying speed**
> A4
Max. 31/31 ppm (colour/black & white)

**Print system**
Laser

**Gradation**
256

**Paper feeder**
> Standard: 350 sheets, max. 850 sheets
> 250-sheet cassette
  (A6–A4, 60–210 g/m²)
> 100-sheet bypass (A6–A4+, 60–210 g/m²)
  for plain paper, recycling paper, labels,
  thick paper, glossy paper, envelopes

**Paper format**
Max. 216 x 356 mm

**Printable area**
Max. 207.6 x 347.6 mm

**Warm-up time**
less than 36 seconds

**Dimensions** (w x d x h)
447 x 544 x 350 mm (main body)

**Weight**
Approx. 23.5 kg (without options/consumables)

**Power**
230 V / 50/60 Hz

## Printer specifications

**Controller**
Embedded controller with 1.066 GHz

**Memory**
1 GB RAM Std., max 2 GB,
320 GB HDD optional

**Resolution**
1,200 x 1,200 dpi (reduced speed)

**Network protocols**
TCP/IP (IPv4/IPv6), SMB, LPD, IPP, SNMP,
HTTP, HTTPS

**Emulation**
Standard: PCL5e/c PCL6, PS 3,
Optional: XPS

**Interfaces**
Ethernet 10/100/1000 BaseT, USB 2.0, Host USB
(USB Drive Printing)

**Driver**
Windows Vista (32/64)
Windows 7 (32/64)
Windows 8 (32/64)
Windows Server 2003 (32/64)
Windows Server 2008 (32/64)
Windows Server 2008 R2
Windows Server 2012 (64)
Windows Server 2012 R2
Macintosh OS X 10.x
Linux
Citrix

**Print functions**
Duplex print, overlay, watermark, N-up, poster,
booklet, USB Direct Print

optional: Direct Print of PDF/JPEG/TIFF/XPS and
OOXML (DOCX, XLSX, PPTX)

**Mobile printing**
AirPrint (iOS), Mopria (Android),
ineoPRINT (iOS & Android),
WiFi Direct (optional)

## Options

> 500-sheet cassette (A4; 60–90 g/m²)
> 1 GB optional memory
> 320 GB HDD
> ID Card Reader
> LK-106 Barcode fonts
> LK-107 Unicode fonts
> LK-108 OCR A and B fonts
> LK-111 ThinPrint® Client
> WLAN adapter
> Copier desk
> MK-P07 Mount kit
> NC-P03 Wireless LAN

## Software solutions

> Data Administrator
> Enterprise Device Manager Plug-in
> WebConnection
> ineo Remote Care (optional)
> EMS Plug-in
